

**INVESTIGATE****EVIDENCE #1**

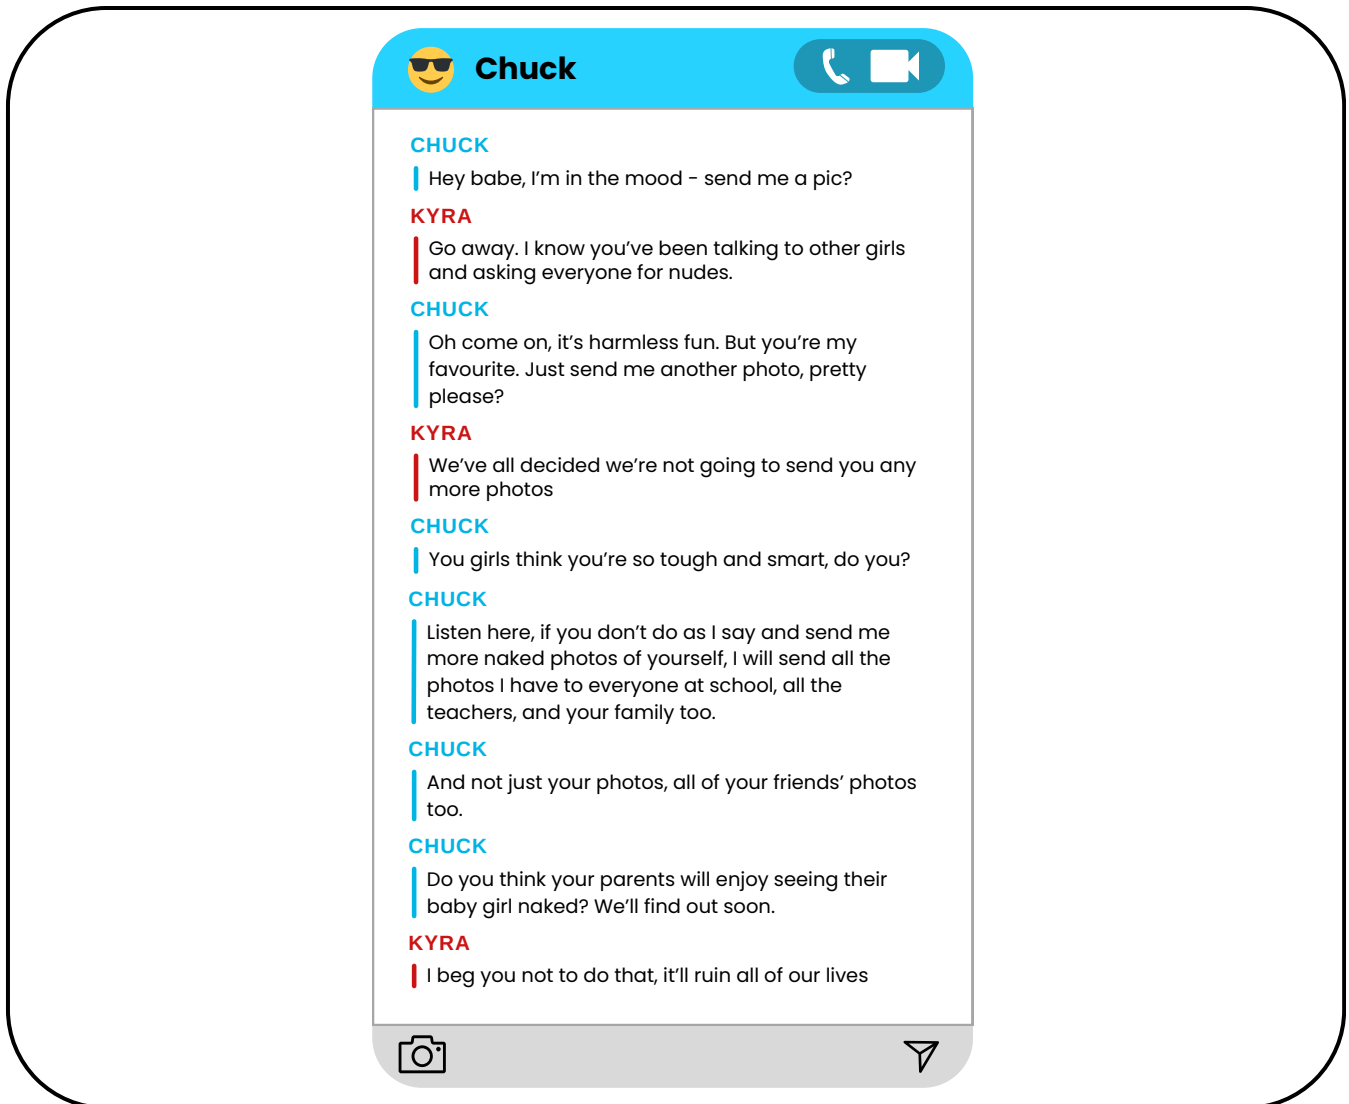

1. In what way does Chuck pressure Gayathri to send him explicit images?
2. What are some potential consequences of sexting for Gayathri, especially if she wasn't emotionally prepared for it yet?

## INVESTIGATE

**EVIDENCE #2**

1. How do societal expectations and peer pressure play a role in encouraging teens to send explicit images?
2. How has Chuck influenced the way these girls perceive and engage in intimate behaviours such as sexting?

**INVESTIGATE****EVIDENCE #3**

1. What are the long-term consequences of sending nudes and other intimate images?
2. What does Chuck blackmail and threaten Kyra with?
3. What should someone do if they realise they are a victim of emotional blackmail?

**INVESTIGATE****EVIDENCE #4****AirDrop**

Chuck wants to send you 24 photos.

1. Chuck has engaged in non-consensual dissemination of intimate images of the female students at his school. What serious repercussions of such online abuse will Chuck face?
2. Do Gayathri, Kyra, and Adele deserve to have their intimate images shared online without their consent?

**INVESTIGATE****EVIDENCE #5****EVERGREEN ACADEMY****Important Update: Legal Consequences of Sharing Explicit Photos**

Dear Students,

I would like to inform you about a recent incident that has occurred within our school community. It has come to our attention that one of our students has been caught sharing explicit photos of other female students without their consent.

We would like to remind everyone that sharing explicit photos or videos of underage individuals is not only a violation of our school's code of conduct but also a serious criminal offence.

The student in question has been expelled and is now facing legal action. He is due in court shortly. This incident serves as a stark reminder of the serious consequences that can arise from such behaviour.

We, at Evergreen Academy, are committed to creating a safe and respectful environment for all our students. In light of this incident, we will be reinforcing our efforts to educate students about the importance of cybersafety and the legal implications of sharing explicit content. We encourage you all to be mindful of your actions, both online and offline, and to treat each other with respect and dignity.

Signed,

**Mr. Pierre Green**

Headmaster

1. Research the legal implications of sharing explicit images of minors in your country.
2. What strategies can be used to resist the pressure to send explicit images?

## PROJECT WORK

**Design and develop a mobile app or interactive website that educates users about the implications of sexting, how to deal with the pressure to send intimate images, and what to do if they face emotional blackmail.**

### What should your project outcome look like?

The app or website should feature engaging and interactive content to help users understand how to build safe and healthy online relationships. You can create a digital prototype, or draw mock-ups for the app or website's design and functionality.

### Instructions and Questions to Consider:

1. What unique features or content will your app or website offer that sets it apart from existing resources on online safety and relationships?
2. Who is your target audience? What kind of content will they find informative and engaging?
3. Create engaging, informative, and interactive content for each of the key features and sections, such as articles, quizzes, videos, personal stories, and resources.
4. How will your app or website empower users to make informed decisions and take appropriate action when faced with sexting, pressure to send intimate images, or emotional blackmail?
5. Create Mock-ups or a Digital Prototype: Depending on your skills and resources, create detailed mock-ups or a digital prototype of your app or website, showcasing the design, functionality, and user flow.
6. Create a presentation that explains the purpose of your app or website, highlights its key features and content, and showcases your mock-ups or digital prototype.
