- Phishers like to entice you with gifts and rewards that are too good to be true!
Check the subject line - does this sound realistic?
- Always check who's sending you the email! Phishers will try and pretend to be
someone they're not. You can catch them by checking the spelling of the website.
- Be careful of things that claim to be "FREE"!
- You've learned not to give out certain types of personal information - can you
spot the three details this Phisher is asking you for?
